British Society of  
Periodontology

Dear Friends and Colleagues,

**British Society of Periodontology  
Annual Conference 24-26 April 2019, The Grand, Brighton, England  
Is this the Modern Way?**

I am delighted to invite you to attend our Annual Conference in April 2019. We have a fantastic group of speakers and full details of our scientific programme can be found on our website: <https://www.bsperio.org.uk/events/info/bsp-conference-2019/>

The BSP celebrates its 70th Anniversary in 2019. Much has changed in society, healthcare and dentistry since 1949, and we have progressed to what we believe is an evidence-based, science-driven model of patient management.

In keeping with the Society's traditions, the topics at this meeting range from the use of new technologies for diagnosis, treatment planning and delivery of periodontal treatment, through cost-effectiveness and reasonable expectations of treatment (and what this means for clinician and patient) and the local, systemic and other impacts of some of the daily interventions we use in dentistry and medicine. We will even address whether we are in fact still using 70-year old strategies for the management of complications of the most modern restorative treatments.

This is also a wonderful opportunity to explore England and stay in the iconic hotel, The Grand, where we have secured reduced room rates for the duration of the Conference.

I hope that you will be able to join us.

Best wishes,

**Dr Mark Ide  
President Elect  
The British Society of Periodontology**
